<b>Other Tortoises outside Shores:</b> <b>Aldabra:</b> Dash (largest), Bolt (smallest) both over 100 lbs and 7 years old. Sex in unknown . <b>Radiated:</b> 2 Females Selina Kyle ad Harley Quinn 27 years old  <b>Burmese Mountain:</b> 2 Females and 3 males. Ages 10-14 years.		<b>Fun Facts:</b> These tortoises are believed to live over 100 yrs. Their spine is connected to their shell (carapace.) Our tortoises came to the zoo in 1992. Bubba was 184 lbs. (45 yrs. old) and Sonny was 70 lbs. (25 yrs. old.) Sexually mature at 25-30 years old- usually considered mature by size rather than age.  *Diet has changed to match a more natural one with less fruit: Bananas, apples, melon and more will be used for training purposes. Browsing opportunities will be increased in the summer and parts of the year when leaves are still green.
