Kangaroo fun facts

- Males can be called bucks, jacks, or boomers.
Females can be referred to as does, jills, or flyers
- Can hop horizontally up to 26 feet
- Crepuscular – more active at dawn and dusk
- Have bones all the way to the tip of their tail
- Kangaroos have excellent hearing, like a cat they swivel their ears to pick up sound
- Kangaroos are excellent swimmers
- Communicate through clucks and will give a guttural cough and foot stamp if alarmed or sense danger
